

HealthCare *Synergy*, Inc.

WHO WE ARE

We are a privately owned health care software company located in Southern California and are represented nationwide by business partners dedicated to promoting our cost-effective, efficient home care software. Our flagship application called the *HealthCare Assistant* offers a Windows-based information system supporting financial, administrative and clinical functions. It comes with our Software Maintenance Agreement which offers one of the most dynamic support plans in the industry and also provides unlimited phone or online support with extended hours from 6AM to 5PM PST. Our website, www.healthcaresynergy.com, is a valuable tool containing comprehensive educational information and timely industry and software updates. Our facility hosts thorough and comprehensive bi-weekly training sessions which deal with topics such as clinical, billing and finances made available to our clients online using GoTo Meeting (Webinar). Our computer lab, manned by billers and technicians, can be utilized as a disaster plan for OASIS and billing transmission. We also provide regular product update in-services and a new e-Learning Center providing health care in-services and CEU.

As options, we provide additional services such as Interim Billing, PPS Revenue Recovery Services. We offer several Points of Care software choices and several full-pledged OBQI vendor interfaces.
